Alex Pohl has had all manner of different jobs before his bestselling books captured a large audience – the number of copies sold of thrillers he writes under the pseudonym L.C. Frey is regularly six-figured. *Icy Days* is the beginning of a series of crime stories set in Leipzig and the first of his books to be published under his real name.

Winter in Leipzig, the city is freezing in the icy cold. The frozen-stiff body of an attorney is found in a car by the Elster-Saale canal. For the experienced detective inspector Hanna Seiler and her self-willed colleague Milo Novic this starts off as a routine case of murder.

Very quickly, however, it turns out to be a thicket of criminal entanglements: they find incriminating material in the dead man's possession, including a photograph of an underage girl who has been missing for weeks. While the snow in the city is piling up, the investigators have to enter a sinister world in which even the very youngest are playing dangerous games ...
