Ernst Peter Fischer, born in 1947, studied mathematics and physics in Cologne and biology at the California Institute of Technology in Pasadena. He received a professorial scholarship in the area of history of science. Today he is a history of science professor at the University of Cologne. He is the author of numerous bestselling books, receiving for his work many awards, including the Sartorius Prize of the Academy of Sciences, Göttingen.

www.epfischer.com

In his latest book the distinguished science historian Ernst Peter Fischer has collected the best scientific insights from the past. Be they by Galileo Galilei, Marie Curie or Albert Einstein – they are words of wisdom whetting our appetite for knowledge and inspiring us to learn more about the researchers and scholars who make it easier for us to understand science.

As entertaining and profound as ever, Ernst Peter Fischer shares with us his fascination for this world and encourages us to think further and never lose our sense of amazement.

For readers of Bill Bryson and Yuval Harari.

Press

"Very worth reading." *Hamburger Abendblatt*

"Science historian Fischer has here presented the science breakthroughs from Galileo Galilei to Albert Einstein – as comprehensibly and entertainingly as usual. Instructive" *PM*

"Ernst Peter Fischer vividly displays how in the world of technology one thing leads to another." *Focus*
