Tamer Bakiner is one of the leading economic investigators and security experts in Germany. Among the customers of his business detective agency are energy groups, DAX enterprises, top lawyers, automobile manufacturers, celebrities, the pharmaceutical industry, insurance companies, banks, and wealthy private customers. In barely 20 years he and his team have solved over 1,000 cases. Worldwide he and his network are present in over 70 countries.

Tamer Bakiner is a business investigator and security expert. In his book he relates some of his most thrilling and interesting cases.

Those who have learned to see the world through the eyes of a detective will seldom be fooled and will attain their goals faster. Information plays a crucial role in this. Whoever possesses the right information will have influence over others. It is thus all the more incomprehensible how careless many people are in their dealings with personal information. For a detective this is an advantage. And with this book, readers will definitely want to adjust some of their personal security settings and become more observant in life.

- Everyone leaves behind clues; you need only learn how to read them.
- Fascinating cases that read like mystery stories
