

Deep relaxation and self-hypnotic trance techniques for doing at home

Dr. Dorothea Fuckert
**Journey of the Soul to
the Life between Lives**

[Seelenreise in das Leben
zwischen den Leben]
How divine memories can heal

Goldmann Taschenbuch
256 pages
Format 13,5 x 20,6 cm
March 2013
With CD

Dorothea Fuckert is a medical practitioner specializing in psychotherapy and homeopathy with her own practice. Her focus is on past-life regression and spiritual coaching. She has trained in psychiatric organ therapy, hypnosystemic therapy, St. Germain inner alchemy, and the Michael Newton method for spiritual past-life regression at the Newton Institute.

Spiritual past-life regression, also known as soul travel or journey of the soul, is an effective method for discovering one's true self. In a deep trance, similar to what is experienced while falling asleep, it is possible to summon memories from a super-conscious memory. It is there that everything a soul has ever experienced is saved.

Dorothea Fuckert shows step-by-step how to connect to your personal soul space through deep relaxation and self-hypnosis techniques. Fascinating case studies illustrate this healing effect, through which we will understand the path of our soul, to acquire new life courage and experience spiritual growth and fulfilment.
