The new school of perception – the senses as gateways to the world

How can we be able to put a glass to our lips in the dark without spilling anything?

Because our sense of motion enables us to perceive every part of the body even with our eyes closed. There are more than twice as many senses than the five known ones: hearing, vision, smelling, tasting, sense of touch. In order to develop they need stimulation from the beginning!

Education starts with perception

Expeditions into the fascinating world of senses
