Already as a child, **Lena Kiefer**, born in 1984, was a keen reader and loved making up stories. At first, it never occurred to her to turn her hobby into a career. After school, she strayed into the world of paragraphs; she found her way back to literature just in time, and studied German. Lena Kiefer now lives near Bremen with her husband and spends every minute at her disposal – or not – writing. The *Ophelia Scale* trilogy is her debut.

Kenzie's happiness is under threat. Her boyfriend is suspected of a monstrous crime. But Kenzie finds it hard to believe that her great love could be a killer.

Lyall is desperate. He's been accused of murder, and all the evidence is stacked against him. He begins to question everything – and everyone – he thought he knew. And his love for Kenzie is put to the greatest test of all.
