Markus Spang, born in 1972, studied illustration in Krefeld and Münster. Nowadays, he works in Karlsruhe as an illustrator for various magazines and publishers. He illustrated numerous children's books and is known for his tricky and ingenious puzzle books. http://www.gnaps.de

Use your eyes! asks this special searching book for smart minds. On every double page there is hidden an animal, within the pictures as well as the rhymes. The varying searching adventure leads Nele and her friends from her backyard through desert and jungle to the moon and back again. Only those who look closely will find the well-hidden animals in unexpected places. And whoever can't find all the animals might want to have a look in the back of the book – or simply keep on searching.

• Varied and entertaining hide-and-seek game with pictures and words
• A picture book that grows along: the colourful typography design sparks the interest for letters and reading.
• Similar to the Magic Eye principle, the animals are hidden on a second plane
