Norbert Pautner has been drawing and painting ever since he has been able to hold a crayon. At some stage he started making up his own stories to go with his pictures and finally decided to turn creating books into a full-time job.

What does a Giganose look like? What is a Grumpler? What faces do Wobblebobble and Curlywurlydoodle pull? Thanks to the simplest step-by-step instructions, any child can put these 7 1/2 monsters on paper in a flash. All little monster friends aged 5 and older are invited to bring their favourites to life with coloured pencils, and organise a great big monster party!
